30% of Luxembourg residents say they would be willing to take recommendations from a "robo-adviser"!

ING News: 30% of Luxembourg residents say they would be willing to take recommendations from a "robo-adviser"!

Share this page

According to the latest ING International Survey (IIS) on mobile banking, 44% of Luxembourg residents surveyed are willing to be assisted in one way or another by a robo-adviser.

As to whether Luxembourg residents would want their banking app to automatically transfer money from their savings account to their current account when they are in the red, 30% replied "yes", versus 34% throughout Europe, 41% in France, 31% in Belgium and 26% in Germany.
